

Features:

- Super HD large screen
- Intelligent adjustment of brightness
- Low noise operation
- Filter replacement Intelligent reminder
- Dual use Oxygen/Atomization
- Remote control

Non stop operating for
8000hours

Instrument classification	Class B Medical Grade	Oxygen density	93%±3%
Sound Level	<52dB(A)	Flow- rate	0.5-5L/min
Compressor	Oil-free compressor	Compressor life	8000hours
Working time	24hours no-stop	Warranty	24 months
Molecular Sieve	Lithium-type molecular sieve oxygen	Housing Material	ABS
Power Consumption	450VA	Power Requirements	AC220V±22V 50Hz±1Hz
Outlet pressure	20kpa	Atmospheric pressure	86kpa~106kpa
Height above sealevel	0~1300m	Working temperature	5℃~40℃
Machine Size	33x34x53cm	Net Weight	16.6Kg
Carton Size	42x40x61cm	Gross Weight	18.6Kg
Accessories	Nasal oxygen tube, Nebulizing cup, Air filter cotton, IR remote control
